RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner of Patents  
Washington, DC 20231

Sir:

In response to the Restriction Requirement of May 12, 2004,  
Applicants hereby elect Group I, Claims 1-13 and 30-33, with traverse.

Applicants respectfully request withdrawal of the Restriction  
Requirement. No unduly extensive or burdensome search would be required  
to examine the various claims of the noted Groups in the same  
application. MPEP §803 states:

"If the search and examination of an  
entire application can be made without  
serious burden, the Examiner *must*  
examine it on the merits even though  
it includes claims to distinct or  
independent inventions." (Emphasis

added)

In the present case, the search for all pending claims together would not  
be burdensome.

Moreover, from the standpoint of costs to the Applicants involved  
in filing, issuance and maintenance fees relating to separate  
applications if the present Restriction Requirement is maintained, it is

clear that there is substantially more burden on Applicants by imposing the present Requirement than on the Patent Office if the Requirement were withdrawn.

In addition, it is noted that to require the claims of the various Groups to issue in separate patents would result in inconvenience to the public by necessitating reference to more than one patent during searching, to review closely related subject matter.

Therefore, withdrawal of the Restriction Requirement is warranted.

Reconsideration and withdrawal of the Restriction Requirement are respectfully requested.

Respectfully submitted,

James E. Ledbetter
